

## WHAT IS ANALOG FAITH IN DIGITAL BABYLON?

*Analog Faith in Digital Babylon* is designed to help church leaders, parents, and local congregations navigate the Digital Age by sharing information and resources that will encourage and strengthen your faith while equipping you to effectively use technology to glorify God.

Solomon was right when he said, "There is nothing new under the sun." While the sins and struggles that impact our lives have been the same since Solomon's day, access to those things is always changing. This workshop will examine how the church should respond to new technology and how we can prepare and equip emerging generations to remain faithful in the Digital Age. We'll discuss topics like Artificial Intelligence, social media, digital addictions, the growing generation gap, and many other ways technology forms and shapes both our lives and our faith.

In the Digital Age, the church must not run from technology. Rather, Christians must learn to steward the tools of our day to effectively "go into all the world" and to "grow in the grace and knowledge of our Lord and Savior Jesus Christ." Join us as we seek to become better digital disciples while wisely guarding against the dangers that exist online.

### MEET OUR SPEAKER

**JASON HELTON**

Jason is the Media Outreach Minister for the Madison Church of Christ in Madison, AL. He has been in full-time ministry since 2007. In 2017, after 10 years in Youth Ministry, he moved into his current role as Media Outreach Minister. He and his wife, Ellen, live in Harvest with their four children. Jason has a B.A. in Youth & Family Ministry from Faulkner University and an M.A. in Online Ministry from Regent University.

As Media Outreach Minister, Jason creates content that communicates the Gospel and connects the church. He created the *Analog Faith in Digital Babylon Workshop* to help churches navigate the ever-changing digital landscape. This workshop aims to empower individuals and congregations with valuable knowledge and resources to develop strong disciples who can skillfully leverage technology to advance the Kingdom of God in the Digital Age.
